Europass XML

Europass is based on the Europass XML.

Europass is rendered to HTML, PDF, Microsoft DOC, OpenOffice via the on-line editor.

For filling-in the Europass CV and LP, an on-line editor exists at the portal.

For filling-in the Europass Mobility, CEDEFOP is currently developing an electronic system (start of 2008)

“It is our general strategy to strive for interoperability with any related systems and initiatives, so as to improve the potential for EU citizens to re-use the information they have already entered in one place, without having to re-enter it again.”

The Europass Mobility

The Europass Mobility is a record of any organised period of time that a person spends in another European country for the purpose of learning or training.

- a work placement in a company;
- an academic term as part of an exchange programme;
- a voluntary placement in an NGO.

The mobility experience is monitored by two partner organisations, the first in the country of origin and the second in the host country. The partners may be universities, schools, training centres, companies, NGOs, etc.

The Europass Mobility is completed by the home and host organisations involved in the mobility project in a language agreed between both organisations and the person concerned.

The Europass Diploma Supplement

The Europass Diploma Supplement is issued to graduates of higher education institutions along with their degree or diploma. It helps to ensure that higher education qualifications are more easily understood, especially outside the country where they were awarded. The Europass Diploma Supplement was developed jointly with Unesco and the Council of Europe.

The Europass Diploma Supplement is issued by the higher education institution awarding the original diploma or degree.

The Europass Diploma Supplement

DIPLOMA SUPPLEMENT RECORD OF ACADEMIC ACHIEVEMENT

The University of
Nottingham

This Diploma Supplement follows the model developed by the European Commission, Council of Europe and UNESCO/CEPES. The purpose of the Supplement is to provide sufficient independent data to improve the international "transparency" and fair academic and professional recognition of qualifications (diplomas, degrees, certificates, etc.). It is designed to provide a description of the nature, level, context, content and status of the studies that were pursued and successfully completed by the individual named on the original qualification to which this supplement is appended. It should be free from any value-judgements, equivalence statements or suggestions about recognition. Information in all eight sections should be provided. Where information is not provided an explanation should give the reason why.

The Diploma Supplement is issued in a widely spoken European language and free of charge to every student upon graduation.
